**NOW READY—NOW READY.**—Newton's great unknown forces demonstrated at last.

**CHAPMAN'S PRINCIPLES;**  
ON NATURE'S FIRST PRINCIPLES.

This work embodies the results of many years of close investi-  
gation in a new field thus overthrown, capturing the  
elements of an important class of the laws which govern  
the action of the elements; exposing the numerous  
anomies of the popular (now so-called) Newtonian  
theory of gravitation without Repudiation.

Demonstrating the exactness of the application of Repulsive Forces  
to the action of Gravitation. Newton himself was  
unconscious of the existence of forces other than Gravitation, as will  
be seen by the following quotation from his own words:

In explaining the causes of the movements of the  
planets, he says: "I am induced by many rea-  
sons to suspect that they may all depend upon certain  
forces by which the particles of bodies move charmingly exercised  
over them, as far as we know, by Mr. E. Evans, who has engraved the  
signs of motion in a first-rate of excellence."

They have about "STORE-HOUSE" of ANNUALS,  
GIFT BOOKS, JUVENILES, ALBUMS, GAMES, TOYS,  
BOOKS, PORTFOLIOS, &c. Their assortment in this de-  
partment remains now, as heretofore, without a rival. Their
